

## **GE Energy acquires GeoXtension technology**

GE Energy has acquired Fichtner's GeoXtension software and together with Fichtner will enhance the proven GeoXtension three-tier Web client as a supported GE Energy product. The companies are now collaborating on the development of Smallworld Geoxtension, the latest product in GE's Oracle® Spatial-based, Web-enabled software solutions for network and asset management.

Fichtner IT Consulting will offer the new GE Energy product as one of GE's Value Added Reseller (VAR) partners and will continue to deliver high quality solutions and expert services.
